

# ACPA PENNSYLVANIA CHAPTER

The **Pennsylvania Chapter** of the American Concrete Pavement Association was incorporated in 2006 and is one of approximately twenty ACPA affiliated state/regional paving associations operating in the United States.

In the Commonwealth of Pennsylvania, our **professionals** bring to the table over 70 years of accumulated experience in the concrete paving industry, working on a daily basis with state highway agencies, the Turnpike Commission, major airport and general aviation authorities, and the consulting engineering community to promote quality concrete pavement and to solve problems.

Chapter **members** include contractors, cementitious manufacturers/suppliers, material producers/suppliers, equipment manufacturers/suppliers, consulting engineering firms, and others who are steadfast in their commitment to producing high-quality concrete pavements.

Working in partnership with its members, the **Chapter's mission** is to promote high-quality concrete pavements in the Commonwealth by educating specifiers, legislators and government officials about the benefits of the locally manufactured, environmentally responsible, safe, cost-effective pavement investment: **Concrete**.

**Membership** in the Pennsylvania Chapter provides you numerous benefits:

- ◆ **Project support** through our Staff's technical capabilities and knowledge can and have been used by members to address specific paving issues.
- ◆ **Strength in numbers**, ACPA Pennsylvania Chapter, by partnering with agencies on committees and project review teams, is the united voice for interacting with agencies on matters related to design, specifications, new technology, constructability, and other concrete pavement issues, giving you a voice.
- ◆ **Access to decision-makers**, because our staff interacts with PennDOT, other agency personnel and elected officials across the Commonwealth, we become your personal avenue to decision-makers on pavement and transportation issues.
- ◆ **Continuous promotion** through partnerships with our cement and concrete producers, and other like-minded organizations. Our Staff continually monitors project planning activities, airport funding information, and other efforts to identify upcoming paving projects to members.
- ◆ **Communication venues** through our website and correspondence, as well as ACPA's Concrete Paving Progress, provide you with the ideal way to stay current on industry news.
- ◆ **Technical training and information** are available through our expertise in design, construction, rehabilitation, mix design, life cycle cost analysis (LCCA), and other topics that enables us to address almost every aspect of concrete paving. Because of our relationships with other state and national associations, we can quickly find you answers to any concrete pavement questions you have.
- ◆ **Affiliation with ACPA** allows our members to take advantage of discounted publication and webinar fees and facilitates networking with other industry professionals across the country.

**Invest in the future** of your business today by contacting the  
**ACPA Pennsylvania Chapter**  
for more information about our association and in helping us to make  
**Concrete the paving material of choice** in the Commonwealth
